

Neave Connell

Infrastructure Recruitment Consultant

I am a diligent and transparent recruiter who believes in having strong and communicative relationships with both clients and candidates alike. Over the past 3 years, I have spent in recruitment, I have worked relentlessly to provide a fantastic service delivering top-quality candidates to clients. Working within TechNET's client services team gives me the platform to build rapport and relationships with key and new accounts; as well as doing what I love, speaking to candidates.

MY EXPERTISE:

- 1st/2nd/3rd Line
- Unified Communications
- Network Engineers & Consultants
- HMI Engineers & Designers
- System Administration
- Infrastructure Engineers
- Service Desk Analysts
- Project Engineers
- 3D Design

RECOMMENDATIONS:

"When we first contacted Neave and sent her a job spec, she called back to discuss and immediately demonstrated an understanding of our requirements. This understanding was reinforced when she sent the first selection of CVs for us to look at. We were given a range of strong candidates, and Neave was always helpful and responsive during our selection process. The best of her candidates is now a very productive colleague of mine."

Stephen Baldwin,
IT Business Applications Manager,
IMO Carwash Group

"Neave is extremely professional and very good at what she does! She has a huge amount of patience and follows up on what she promises every time. From the moment we first spoke it has been an absolute pleasure to deal with Neave and I highly recommend to speak to her if you are looking for someone who will commit to seeing your job search through to its conclusion. Thank you Neave!"

Matthew Drake,
Service Desk Analyst,
Mercedes AMG F1

"Working with Neave was a pleasure! Her warm, friendly approach and regular updates reassured me during my recruitment process. Neave always had the time to answer my emails and phone calls in a timely manner, I never felt left in the dark or waiting for a response. Neave Connell is a credit TechNET IT Recruitment!"

Josh Lockett,
Unified Communications Engineer,
Airbus
