- Programme Director
- Senior Architect
- Senior Project Manager
- Head of Engineering
- Head of Product
- Senior Developer
- IT Operations Manager
- VP of Engineering
- VP of Product
- Regional SaaS Sales Manager
- CTO

RECOMMENDATIONS:

zone

"Our TechNET IT experience has been great. Simon has shown professionalism and keen understanding of our IT requirements within our Multimedia and Web Hosting environment. Soon after highlighting our potential interest, Simon was able to forward several candidate CV's, all with the skill sets that we required. TechNET IT's manner in pursuing the goal of doing business with us, was what I would describe as a classy and a hassle free interaction. I am to date pleased with TechNET IT's service. We later realised that our sister company Publiczone had also used TechNET IT's services prior and this added further confidence with our choice of IT Recruitment Agency. Thanks for your help."

AVNET

"I have worked with TechNET, specifically Simon, and during that time has also liaised with several colleagues of mine. All of us highly recommend TechNET and we wouldn't hesitate to work with them again. Simon is professional, hard working and friendly. Skilled individuals in our market are exceptionally hard to find, yet TechNET always deliver and don't compromise on quality. Having worked with many (many!) recruiters, I can honestly say Simon is a credit to his industry."

ANTEREC

"I worked with Simon to get a contractor on-site with very tight timescales. He provided me with great advice and help at every stage which has, in turn, enabled our company to establish a great working relationship with one of our newest clients. He has been friendly, professional and knowledgeable and I would highly recommend him to anyone else looking for contract staff. I'm sure that we will continue to do more business in the future."
