TechNET IT Recruitment

Marc Hodkisson
Software Recruitment Specialist

As a specialist across the digital space, I'm a recruiter who loves to talk tech and delve into how it contributes to wider company growth. I take pride in knowing the ins and outs of my partnering clients and being more of an end-to-end consultant rather than your typical recruiter. My passion is working with SME's, building teams that are going to truly contribute to a company's success story and make a huge difference in the workplace. I have also been lucky enough to work with multi-national companies which has given me a great insight into how global power houses work behind the scenes.

MY EXPERTISE:

- Software & Web Development
- Java/Python/C#/Golang
- Microservices & REST
- Mobile Apps
- iOS/Android
- JS/Node/React/Angular
- UX/UI
- Swift/Kotlin/React-Native
- Marketing Automation

RECOMMENDATIONS:

SOMMET EDUCATION

"Marc was successful in finding the right candidates for us. He was reliable, professional and friendly. He quickly understood the profiles we needed in our team and delivered very good work both in quantity and quality. I would not hesitate in recommending him to any potential employer."

Talent Acquisition Manager at Sommet Education

HST & CO LTD

"TechNET were super helpful getting me a job in one of the leading tech companies in Germany. They went above and beyond to help as much as possible in the Visa process even contacted the embassy themselves. They always checked up on my progress with the company even after I started with them and made sure I was comfortable! Even when the move to Germany was postponed, TechNET got me to start remotely and set everything up! "

Technical Web Consultant at HST Co

PM-International

"I had an awesome experience with TechNET during the process to place me as a Front-End developer role at PM-International, they were really enthusiastic and helpful. In summary, if TechNet contact you to offer a job position, they will do their best to help you during the process and it will be really an awesome experience. Thank you very much TechNET. Highly recommended."

Senior Front End Developer at PM-International AG
