### RECOMMENDATIONS:

"Helen is a rare breed of technical recruiter that are hard to find. Not only is Helen professional and pleasant to work with, she also made a huge effort to understand what was important to me as a hiring manager before sending me a few, highly relevant profiles. Helen has the best understanding of Agile I've ever come across in a recruitment consultant, so was able to screen candidates very well before sending to me. Highly recommended!"

Her ability to spot talent quickly and put forward best candidates available for the role have saved me valuable time and meant that I have been able to successfully fill roles with a few days of sending Helen the job specs. I would recommend Helen to anyone looking for a recruiter who really knows her stuff and who will take pain out of the recruiting process."
